

## Bristles in the bucket ensure a quick cleaning

# Janser Porcupine

Put in.  
clean!

Due to the 15 side-mounted brushes in the bucket, the patented stirrer and tool cleaner saves a lot of time when cleaning stirrers, spiked ventilation rollers, trowels and much more.

- The tools can be cleaned directly on the construction site
- Easy and quick to clean

### Use

Fill the cleaning bucket with water so the upper ring of bristles is about 1-2 cm covered with water.

Insert the tool to be cleaned vertically and with slow, circular stirring movements until a sufficient cleaning effect has been achieved.

### Specifications:

Dimensions ØxH: 40x43 cm

Filling volume: 30L

For stirrers up to max. Ø 220 mm

### Components

1x outside bucket 30L with splash protection lid

1x inner bucket 30L with bristles

Order no. 111 288 000

### Spare accessories

Replacement bristles 3 pcs

Order no. 111 288 010
