Grinding machine

KONDOR

available in 230 V or 400 V

Professional Flooring Technology

Grinding machine

KONDOR

Very powerful, robust floor grinding machine for small to medium-sized areas. Suitable for all tasks of subfloor preparation.

The KONDOR is designed to manage all daily challenges, No matter if it is about basic grinding of screed or the most aggressive use of PCD tools to remove adhesive residues or layers or self-levelling compound.

The KONDOR is characterized by ergonomic handling, a very effective grinding performance and TOP price-performance ratio, also for the grinding rings.

Applications

- Removal of floor covering residues
- Removal of adhesives and coatings
- Grinding of screed, concrete and asphalt
- Leveling of uneven surfaces
